

ZPAM203E Load of SAFETYEX module failed

Problem

"Load of SAFETYEX module failed" showing up in your job output.

Cause 1

If you attempted to upgrade to a new version using a levelset (example: upgrading from v14 to v15), you could receive this error.

1. Obtain the correct base installers from PKWARE
2. If you need a new license key for the version desired click [here](#) to request one from customer service.
